EDUCATION

Cornell University — Ithaca, USA
Master of Engineering Computer Science; GPA: 3.55 — *Jan 2022- Dec 2022*

Indian Institute of Technology (IIT), Indore — Indore, India
Master of Science (Research) Computer Science Engineering; CPI: 9.13 — *July 2018-July 2020*

Devi Ahilya Vishwavidyalaya (DAVV) — Indore, India
Bachelor of Engineering in Information Technology; Grade: 83.97% — *Aug 2014-April 2018*

SKILLS

Programming Languages and Framework: Python, Go, Java, C++/C, HTML, CSS, SQL, PromQL, YAML, Latex, AngularJS
Tools and Tech: Microservices, Apache: Spark, Airflow, Zeppelin; AWS, Azure, Kubernetes, Docker, Prometheus/Victoriametrics, Git

WORK EXPERIENCE

Dexterity, Inc — Redwood City, California, USA
Software Engineer 2 — *Jan 2023 - Present*
- Part of the data team, working on building APIs for monitoring and deploying them on real-time data from robots
- Added feature improvements to decommission Prometheus and move to Victoriametrics for horizontal scaling
- Added Pagerduty, Jira integration with Alertmanager to provide automated alerting in case of any failure

Cornell University — Ithaca, USA
GTRS (Graduate Teaching/Research Specialist) — *Jan 2022 - Dec 2022*
- CS4450(Computer Networks) Professor Rachit Agarwal and CS4120(Introduction to Compilers) Professor Andrew Myers

Cloudera — Bangalore, India
Software Engineer — *July 2020 - Jan 2022*
- Automated Azure Kubernetes Service (AKS) and Elastic Kubernetes Service (EKS) cluster statuses dynamically which allowed customers to efficiently track any issues with the cluster. Created REST APIs for the same.
- Added a high demand customer requested feature of Airflow and spark email alerts to provide alerts on SLA miss or failure of a job
- Added command-line support to create EKS and AKS cluster that made the cluster creation easily manageable.
- As a release captain, led the major release of product enhancement that brought several new features for the customers.
- Open source contribution in Apache/Zeppelin: ZEPPELIN-5116, ZEPPELIN-5249

Indian Institute of Technology (IIT), Indore — Indore, MP
Teaching Assistant — *July 2018 - May 2020*
- Teaching Assistant for IC 151(Computer Programming) and CS 358 (Compiler Techniques) course under Dr.Abhishek Srivastava

RESEARCH EXPERIENCE

- Designed and developed an Automated Surveillance System using Wireless Sensor Networks for the Melghat Tiger Reserve, under the supervision of Dr.Abhishek Srivastava. **Funded by:** Defries-Bajpai Foundation, USA
- Worked on a two-level lightweight adaptive approach to discard unusual faulty measurements by the sensor at the sensor node itself and generated an alarm only when the patient enters an emergency situation using Machine learning algorithms.

GRAD PROJECTS

- Alert vehicles based on dynamic routing of emergency vehicle by collecting real-time traffic conditions: Develop and deploy a machine learning application model on cloud to alert vehicles that are hindrance to emergency vehicle in real-time with Kafka streaming.
- ReviewBoard: Add functionality to provide reviews and comment on a commit message

ACHIEVEMENTS

- Secured 3rd rank in Onsite Finals of INCC 2018 hosted by IET DAVV on CodeChef (2018)
- Secured AIR 878 (amongst 1,30,000 candidates) in Graduate Aptitude Test in Engineering (GATE) with 99.3 percentile.
- Awarded with Certificate of Merit for being among the top 0.1 percent of successful candidates in Mathematics, All India Senior School Examination 2014 by Central Board of Secondary Education.

SEMINARS & VOLUNTEERING EXPERIENCE

- Member of the NGO **HOPE** that works for the thriving future of underprivileged children by nurturing them with quality education.
- Member of the **AVANA** and organised events like Blood Donation camps, Old Age Home and Orphanage visits, Plantation Drive, etc.
- Coordinator of IET-DAVV Cultural Fest, Aakshank 2016 and 2017.
